Initial Build Notes

Nav Bar / Footer
- A little more space between menu tabs for accessibility
- Extend footer to cover sides

Pages
- Separate title line and main image (via depth or spacing)
- No need for last horizontal line (home & history)
- More space before footer on every page
- Standardize line-heights
- Body text seems a little small on all characters page
- Different grid views look great
- Different body text color (dark gray) works well with hierarchy of reading

Mobile
- Less between-paragraph spacing
- Increase text size
- More space between menu tabs
- Increase width of text (media project page)

Other
- Standardize image quality
